

Alerting

Alerting is library's automatic email notification system when a new resource added to the library collection about a related topic. To create an alert first write your research topic to BASE and then click on SEARCH.

The screenshot displays the Bilgi Library homepage in a Google Chrome browser. The address bar shows the URL [library.bilgi.edu.tr](http://library.bilgi.edu.tr). The page header includes the Istanbul Bilgi University logo and the text "library & e-resources". A navigation menu at the top lists various services: Articles & More, Catalog, e-Books, e-Journals, Course Reserve, Databases, Open Access, and Research Guides. The main search area features the "Bilgi Academic Search Engine (BASE)\*" search bar, which contains the text "public health". The "Search" button is highlighted with a red circle. Below the search bar are buttons for "Advanced Search" and "Off Campus Access". A note below the search bar reads: "\* Click here for the resources which are not included in Bilgi Academic Search Engine (BASE)". To the right of the search area is a sidebar with links for "My Account", "Off Campus Access", and "Ask a Librarian". At the bottom of the page, there are four columns of links: "research" (Search the Catalog, Databases, E-Journals), "services" (Borrowing & circulation, Instruction, In-Transit), "about" (General Information, Library Regulations, Library Hours), and "announcements" (New Arrivals, New DVDs, News).

In the opening page, click on **Share** button on the right side of the screen and then select **E-mail Alert**.

The screenshot shows the EBSCO Academic Search Engine interface. The search term is "public health". The search results are displayed in a list format. The first result is "Research Starter Public health" from the Salem Press Encyclopedia of Health, 2011. The second result is "1. 'It's not a priority when we're in combat': public health professionals and military tobacco control pol" from the American Journal of Public Health. The third result is "2. When vaccine misconceptions jeopardize public health" from The Journal of Family Practice. A share menu is open over the first result, with the "Share" button circled in red and the "E-mail Alert" option also circled in red. The left sidebar contains "Refine Results" options like "Current Search", "Expanders", "Limiters", "Limit To", and "Source Types". The right sidebar shows "Related Images", "Beck Online", and "Proquest Dissertation & Thesis".
